

# I Beam Clamp

Heavy duty steel bar clamps

**NEW**

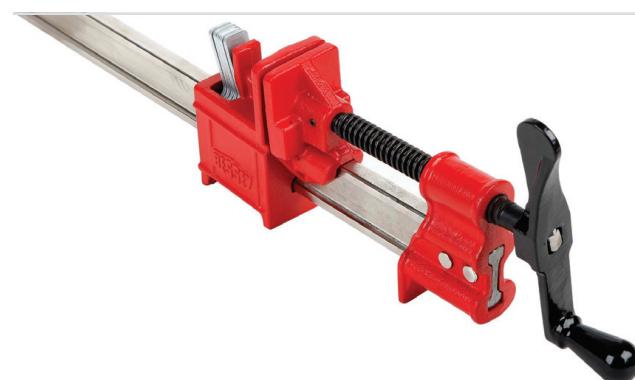

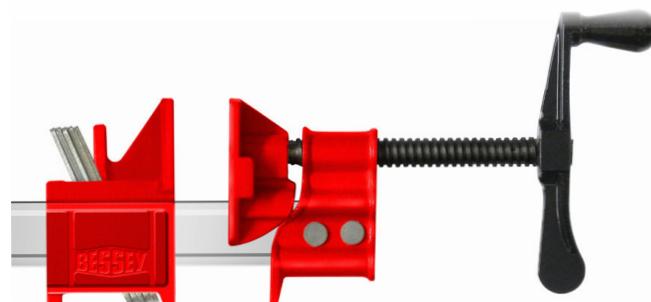

## BESSEY® Strength

### Bar clamps

Designed to meet the demanding needs of industrial workloads. The I Beam is very stiff – will not bend or twist like other clamps over a long distance.

These clamps are best for powerful clamping of small spots, where strength and straightness over a distance are crucial to hold wood in alignment. BESSEY I Beam clamps are ideal for high-demand industrial and institutional woodworking. Available in lengths from 24" to 96".

- **Heavy duty steel bar clamps**
- **Durable I Beam construction**
  - Provides exceptional strength
- **Tough ductile castings**
  - Powder coated
- **Nickel plated rail**
  - Resists corrosion
- **5 strong, hardened steel clutch plates**
  - To aid with gripping the bar stock
- **Crank handle:**
  - For tremendous strength and long term durability
- **ACME threaded screws**
  - With  $\frac{1}{16}$ " spindle diameter.
- **Large handles**
  - Easy to grip

	Clamping Capacity	Throat Depth	Jaw Width	Bar Width	Bar Thickness	Load Capacity
IBEAM24	24"	2"	1 3/4"	1 3/8"	7/16"	7000 lbs
IBEAM30	30"	2"	1 3/4"	1 3/8"	7/16"	7000 lbs
IBEAM36	36"	2"	1 3/4"	1 3/8"	7/16"	7000 lbs
IBEAM48	48"	2"	1 3/4"	1 3/8"	7/16"	7000 lbs
IBEAM60	60"	2"	1 3/4"	1 3/8"	7/16"	7000 lbs
IBEAM72	72"	2"	1 3/4"	1 3/8"	7/16"	7000 lbs
IBEAM84	84"	2"	1 3/4"	1 3/8"	7/16"	7000 lbs
IBEAM96	96"	2"	1 3/4"	1 3/8"	7/16"	7000 lbs
