

HIGH HEAT PERFORMANCE COATING

Through the years, the VHT® brand has been the motorsport enthusiasts' choice for high-heat applications and known for "Extreme High Heat Performance". It can withstand such extreme high-heat temperatures that it found its way into the space program and was used on space bound and atmospheric re-entry spacecraft.

It's always been about the heat at VHT®. Now we've rolled out new packaging and also improved your project results with the Danvern® EZ Touch nozzle.

NEW

VHT® FlameProof™ Coating

VERY HIGH HEAT

VHT® FlameProof™ Coating will renew and extend the life of any surface exposed to extremely high temperatures. This unique coating is a matte finish, silicone ceramic base widely used by the automotive industry on exhaust systems and the aerospace industry for jet engines, re-entry vehicles and other high temperature applications.

Temperature: 1300°F-2000°F (704°C-1093°C)

Applications: Headers, Exhaust Manifolds, Piston Domes, Inside Heads

11 oz. can — Case Pack: 6

COLORS

SP101	Flat White
SP102	Flat Black
SP104	Flat Gray
SP106	Flat Silver
SP108	Flat Yellow
SP109	Flat Red
SP110	Flat Blue
SP113	Flat Almond
SP114	Flat Orange
SP115	Clear (Satin Finish)
SP117	Flat Aluminum

PRIMERS

SP100	Flat Gray Primer
SP118	Flat White Primer

NEW

VHT® Wrinkle Plus™ Coating

HIGH TEMP

VHT® Wrinkle Plus™ combines strong colors with a deep rich texture for a custom look. It is ideal for adding a touch of personal styling to almost any metal surface. VHT® Wrinkle Plus™ resists color fading, grease, degreasers and severe weather conditions. This tough durable finish is extremely resistant to rust, corrosion, chipping and cracking.

Temperature: 350°F (177°C)

Applications: Valve Covers, Metal Dashboards, Glove Boxes, Starters, Door Panels, Shifters, Alternators, Firewalls

11 oz can — Case pack: 6

SP575 Strip Fast Paint Remover

NEW

VHT® Epoxy All Weather Paints

VHT® Epoxy Paint is a one-step epoxy coating, which does not require the use of a primer. It has been formulated to give the appearance and durability of a baked-on finish. It provides a porcelain-like finish that is chemical-, corrosion-, rust- and salt-resistant.

Temperature: 250°F (121°C)

Applications: Suspension, Kick Panels, Tools.

11 oz can — Case pack: 6

COLORS

SP650 Gloss Black (OSHA)
SP651 Gloss White (OSHA)
SP652 Satin Black

NEW

VHT® Copper Gasket Cement

VHT® Copper Gasket Cement has been formulated with the same ingredients as our world-renowned high temperature coatings. VHT® Copper Gasket Cement maintains excellent adhesion under severe pressure and heat fluctuations. This high metallic formula assures tight seals on cork, paper and metal gaskets. VHT® Copper Gasket Cement has been extensively tested on racing engines in the field and on dynamometers, where it has met and exceeded the high compression and high temperature requirements of these mega horsepower engines.

Applications: Head Gaskets, Rubber Hoses, Cork Gaskets, Water Pump Gaskets, Threaded Fittings, AN Fittings, Paper Gaskets, Oil Pan Gaskets, Metal Gaskets.

12 oz can — Case pack: 6
