

## SPERIAN PERFECT-COAT™ GENERAL PURPOSE GLOVES

## PRODUCT INFORMATION

Sizes Available	Part #	Overedge Colors	UPC
Small	KV300-S	Red	801462071269
Medium	KV300-M	Blue	801462071160
Large	KV300-L	Yellow	801462071047
XLarge	KV300-XL	White	801462071344

Shell Material:	Kevlar® Engineered Fiber	Material Color:	Yellow
Shell Weight:	10-cut, medium weight	Coating Color:	Blue
Coating Material:	*Natural Rubber	Case Qty:	144 pair
Coating Pattern:	Rough finish	Country of Origin:	Pakistan

## PRODUCT FEATURES

- Kevlar is 5x stronger than steel on an equal weight basis
- Gloves have good cut and abrasion protection in hazardous applications
- 10-cut medium-weight seamless knit liner
- Natural rubber palm and fingertip coating provides excellent grip and flexibility

## TESTING INFORMATION

Test Method	Level	Test Result
Abrasion Resistance:	ASTM 3389-05	not tested
	EN388	Level 3
Cut Resistance:	ASTM F1790-97	Level 2
	EN388	Level 4
Tear Resistance:	EN388	Level 4
Puncture Resistance:	EN388	Level 3

## LAUNDERING INSTRUCTIONS

Dry cleaning is the acceptable cleaning method for gloves of KEVLAR® fiber. Some differences in shrinkage, weight loss, yarn tensile strength, and color related to staining or the cleaning method may be seen, but there is no significant impact on cut resistance up to 30 cleaning cycles (without industrial use between cycles). Thirty cleaning cycles is considered to be more than can be expected because of normal wear. Chlorine bleach is not recommended for Kevlar - chlorine will cause rapid degradation of the fiber.

Wash or dry temperatures should not exceed 170° F. Product withstands commercial laundry-room detergents (up to pH 15) and warm water temperatures up to 120° F (49° C). Lower heat settings (up to 180° F) are suggested for drying as extreme heat may cause shrinking and degradation of fiber.

 **WARNINGS**

**\*These products contain natural rubber/latex which may cause allergies in some individuals. These allergies can lead to serious illness or death. If an allergic reaction occurs (skin rashes, hives, flushing, itching, nasal, eye, or sinus symptoms, shortness of breath, asthma or shock), stop using this product immediately and consult a medical provider.**

**\*\* Gloves are cut-resistant, not cut proof. Extreme caution should be used around moving machinery.**

**\*\*\* Laundering gloves that have been in contact with toxic or corrosive chemicals may result in a chemical reaction, including fumes that could cause personal injury, serious illness or death.**

*This information is provided as a guideline for product use. The end user is solely responsible for determining the suitability of a particular glove for a specific application and the length of time in which such glove may be safely used.*
